Heidegger's Way of Being (New Studies in Phenomenology and Hermeneutics) Richard M Capobianco

In *Heidegger's Way of Being*, the follow-up to his 2010 book, *Engaging Heidegger*, Richard Capobianco makes the case clearly and compellingly that the core matter of Heidegger's lifetime of thought was Being as the temporal emergence of all beings and things. Drawing upon a wide variety of texts, many of which have been previously untranslated, Capobianco illuminates the overarching importance of Being as radiant manifestation – "the truth of Being" – and how Heidegger also named and elucidated this fundamental phenomenon as *physis* (Nature), *Aletheia*, the primordial *Logos*, and as *Ereignis*, *Lichtung*, and *Es gibt*.

Heidegger's Way of Being brings back into full view the originality and distinctiveness of Heidegger's thought and offers an emphatic rejoinder to certain more recent readings, and particularly those that propose a reduction of Being to "sense" or "meaning" and maintain that the core matter is human meaning-making. Capobianco's vivid and often poetic reflections serve to evoke for readers the very experience of Being – or as he prefers to name it, the Being-way – and to invite us to pause and meditate on the manner of our human way in relation to the Being-way.
