The Writing Revolution: Cuneiform to the Internet (The Language Library) Amalia E. Gnanadesikan In a world of rapid technological advancements, it can be easy to forget that writing is the *original* Information Technology, created to transcend the limitations of human memory and to defy time and space. *The Writing Revolution* picks apart the development of this communication tool to show how it has conquered the world.

- Explores how writing has liberated the world, making possible everything from complex bureaucracy, literature, and science, to instruction manuals and love letters
- Draws on an engaging range of examples, from the first cuneiform clay tablet, Egyptian hieroglyphs, and Japanese syllabaries, to the printing press and the text messaging
- Weaves together ideas from a number of fields, including history, cultural studies and archaeology, as well as linguistics and literature, to create an interdisciplinary volume
- Traces the origins of each of the world's major written traditions, along with their applications, adaptations, and cultural influences
