Once Mated Twice Shy K.S. Martin
Colette mated Jordan Giroux when she was fifteen years old. Their parents thought that it was a good idea not to stop them and decided it would calm them both down. At the time, they were both running wild. They were so in love that it was legendary. Since he got it into his head that he wanted to be the Summerville Pack Alpha they've grown apart. When he rejects her it seems that the pack is more important to him. Will he figure out that she's worth it? A bigger question is can she forgive him for making the pack more important than her. The two wolves that loved bigger than any in the pack must find their way back to each other because neither is whole without the other.
