Pro DNS and BIND

Ron Aitchison

Pro DNS and BIND Ron Aitchison

Pro DNS and BIND guides you through the challenging array of features surrounding DNS, with a special focus on BIND, the world's most popular DNS implementation. This book unravels the mysteries of DNS, offering insight into origins, evolution, and key concepts like domain names and zone files. This book focuses on running DNS systems based on BIND 9.3.0 the first stable release that includes support for the latest DNSSEC (DNSSEC.bis) standards and a major functional upgrade from previous BIND 9 releases.

If you administer a DNS system or are thinking about running one, or if you need to upgrade to support IPv6 DNS, need to secure a DNS for zone transfer, dynamic update, or other reasons, or if you need to implement DNSSEC, or simply want to understand the DNS system, then this book provides you with a single point of reference. *Pro DNS and BIND* starts with simple concepts, then moves on to full security-aware DNSSEC configurations. Various features, parameters, and resource records are described and, in the majority of cases, illustrated with one or more examples.

The book contains a complete reference to zone files, Resource Records, and BINDs configuration file parameters. You can treat the book as as a simple paint-by-numbers guide to everything from a simple caching DNS, to the most complex secure DNS (DNSSEC) implementation. Background information is still included for when you need to know what to do and why you have to do it, and so that you can modify processes to meet your unique needs.

Table of Contents

1. An Introduction to DNS
2. Zone Files and Resource Records
3. DNS Operations
4. DNS Types
5. DNS and IPv6
6. Installing BIND
7. BIND Type Samples
8. Common DNS Tasks
9. DNS Diagnostics and Tools
10. DNS Secure Configurations
11. DNSSEC
12. BIND Configuration Reference
13. Zone File Reference
14. BIND APIs and Resolver Libraries
15. DNS Messages and Records

From reader reviews:

Robert Qualls:

Now a day folks who Living in the era wherever everything reachable by interact with the internet and the resources within it can be true or not require people to be aware of each facts they get. How individuals to be smart in acquiring any information nowadays? Of course the correct answer is reading a book. Looking at a book can help folks out of this uncertainty Information specially this Pro DNS and BIND book as this book offers you rich information and knowledge. Of course the data in this book hundred percent guarantees there is no doubt in it as you know.

Charles Anderson:

This Pro DNS and BIND is fresh way for you who has interest to look for some information mainly because it relief your hunger details. Getting deeper you upon it getting knowledge more you know or else you who still having bit of digest in reading this Pro DNS and BIND can be the light food for you because the information inside this particular book is easy to get simply by anyone. These books build itself in the form that is certainly reachable by anyone, yeah I mean in the e-book form. People who think that in guide form make them feel tired even dizzy this book is the answer. So there is no in reading a book especially this one. You can find what you are looking for. It should be here for a person. So , don't miss that! Just read this e-book kind for your better life and also knowledge.

Kimberly Foley:

That guide can make you to feel relax. This particular book Pro DNS and BIND was colourful and of course has pictures around. As we know that book Pro DNS and BIND has many kinds or genre. Start from kids until teens. For example Naruto or Investigator Conan you can read and think that you are the character on there. Therefore , not at all of book are generally make you bored, any it makes you feel happy, fun and loosen up. Try to choose the best book for you personally and try to like reading which.

Doris Avey:

As a scholar exactly feel bored to help reading. If their teacher questioned them to go to the library in order to make summary for some e-book, they are complained. Just little students that has reading's spirit or real their passion. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that studying is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Pro DNS and BIND can make you feel more interested to read.
