Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology)

Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology)
This book presents research on emerging computational intelligence techniques and tools, with a particular focus on new trends and applications in health care. Healthcare is a multi-faceted domain, which incorporates advanced decision-making, remote monitoring, healthcare logistics, operational excellence and modern information systems. In recent years, the use of computational intelligence methods to address the scale and the complexity of the problems in healthcare has been investigated. This book discusses various computational intelligence methods that are implemented in applications in different areas of healthcare. It includes contributions by practitioners, technology developers and solution providers.

From reader reviews:

Jessica Ball:

The book Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology) make one feel enjoy for your spare time. You can utilize to make your capable more increase. Book can to become your best friend when you getting stress or having big problem with the subject. If you can make reading through a book Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology) to become your habit, you can get more advantages, like add your own personal capable, increase your knowledge about some or all subjects. It is possible to know everything if you like available and read a publication Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology). Kinds of book are several. It means that, science reserve or encyclopedia or other folks. So , how do you think about this reserve?

Livia Wilder:

The book Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology) can give more knowledge and also the precise product information about everything you want. Why must we leave the best thing like a book Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology)? Wide variety you have a different opinion about publication. But one aim in which book can give many info for us. It is absolutely proper. Right now, try to closer together with your book. Knowledge or info that you take for that, you can give for each other; you can share all of these. Book Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology) has simple shape however, you know: it has great and large function for you. You can look the enormous world by wide open and read a reserve. So it is very wonderful.

Samuel Puckett:

This Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology) is new way for you who has intense curiosity to look for some information as it relief your hunger of information. Getting deeper you onto it getting knowledge more you know or perhaps you who still having bit of digest in reading this Computational Intelligence Techniques in Health Care (SpringerBriefs in Applied Sciences and Technology) can be the light food for you personally because the information inside that book is easy to get simply by anyone. These books produce itself in the form which is reachable by anyone, sure I mean in the e-book application form. People who think that in e-book form make them feel sleepy even dizzy this publication is the answer. So there isn't any in reading a publication especially this one.
