Charles Darwin

The Origin of Species by Means of Natural Selection : Or, the Preservation of Favoured Races in the Struggle for Life, 6th Edition Charles Darwin
Charles Robert Darwin (12 February 1809 – 19 April 1882) was an English naturalist who established that all species of life have descended over time from a common ancestry, and proposed the scientific theory that this branching pattern of evolution resulted from a process that he called natural selection.He published his theory with compelling evidence for evolution in his 1859 book *On the Origin of Species*, overcoming scientific rejection of earlier concepts of transmutation of species.
