Achieving Classroom Confidence: What You Need to Know to Survive and Thrive as a New Elementary School Teacher Betsy Weigle
Everything You Need to Know to Survive and Thrive as a New Elementary School Teacher This is the book that I wish had existed when I was training to become a new teacher and taking over my first classroom. There was SO much to learn! And so much conflicting advice... it drove me crazy to think that I couldn't find the most-critical information in one place.

Well, I've taken care of that for you! In *Achieving Classroom Confidence,* I explain:

- Things they will never tell you in college about the way the education system really works.
- How to act as a new teacher so children want to learn from you.
- The fundamentals of getting children to behave.
- The basics of setting up your room effectively without spending too much time or money.
- How to schedule, plan and deliver your lessons.
- And a thousand other details I wish someone had told me so I didn't have to learn them all the hard way!

Shortcut Your Success by Learning from My Experience

And from my mistakes!

This is the book for **first-time teachers** starting new jobs and **pre-service teachers** who are just beginning their education journeys.

The "new teacher" phase is a time of intense learning - a critical time for laying a foundation that will ensure you thrive in this profession rather than burning out and leaving. I want you to stay, because you are desperately needed by children, but you have to know what you are getting yourself into.

In short, if you have made a commitment to becoming not just a teacher, but an awesome, life-changing teacher...

This the book for you.
