Power Thinking: How the Way You Think Can Change the Way You Lead John Mangieri, Cathy Collins Block
Most individuals were never formally taught thinking skills and, as a result, are using processes that were developed during childhood to reach decisions and solve problems. Thus, in an era of knowledge explosion, organizational performance accountability, and rapid change caused by technology, leaders and managers are trying to succeed using thinking patterns developed before they were twelve years old. "Power Thinking" offers leaders the information they need to evaluate their current thinking proficiencies, determine areas for improvement, and enhance their thinking skills. The book includes the Yale Assessment of Thinking, a standardized assessment measure that enables readers to determine their abilities in the cognitive domains found to be crucial to being an outstanding leader.
