CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide) Cisco Systems Inc.

Cisco authorized self-study book for CCNP 642-821 remote access foundation learning

Prepare for the CCNP BCRAN exam 642-821 with a Cisco authorized self-study guide. This book teaches you how to:

- Identify Cisco solutions for remote-access needs
- Use AAA to scale access control in an expanding network
- Configure asynchronous connections to a central site with modems
- Configure PPP and control network access with PAP and CHAP
- Use ISDN and DDR connections to enhance connectivity
- Optimize the use of DDR interfaces
- Establish dedicated Frame Relay connections and control traffic flow
- Enable backup to permanent connections
- Manage network performance with queuing and compression
- Scale IP addresses with Network Address Translation (NAT)
- Use broadband to access a central site
- Use VPNs to secure remote-access networks

CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN), Second Edition, is a Cisco authorized, self-paced learning tool for CCNP remote access foundation learning. This book provides you with the knowledge needed to build, configure, and troubleshoot a remote-access network to interconnect central sites to branch offices, small offices, and home offices. This book arms you with skills necessary to describe, configure, operate, and troubleshoot WAN and remote-access solutions.

This comprehensive guide presents detailed information and easy-to-grasp tutorials on the implementation, operation, planning, design, and troubleshooting of modern WAN technologies. Using this book, you learn how to control access using basic authentication and authorization configurations, how to maximize bandwidth utilization over the remote links, and how to set up virtual private networks (VPNs) using IPSec. Each chapter opens with a list of objectives to help focus your study. Figures, tables, examples, and command summaries appear throughout to help explain theories, commands, and setup sequences. Step-by-step configuration instructions make enabling the various technologies easy. Key terms are highlighted and defined throughout for simple reference and review. Finally, each chapter concludes with a summary to help review key concepts and review questions to reinforce your understanding of what was covered.

Whether you are preparing for CCNP certification or simply want to gain a better understanding of WAN technology deployment, you will benefit from the foundation information presented in this book.

CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN), Second Edition, is part of a recommended learning path from Cisco Systems that includes simulation and hands-on training from authorized Cisco Learning Partners and self-study products from Cisco Press. To find out more about instructor-led training, e-learning, and hands-on instruction offered by authorized Cisco Learning Partners

worldwide, please visit www.cisco.com/go/authorizedtraining.

This volume is in the Certification Self-Study Series offered by Cisco Press. Books in this series provide officially developed training solutions to help networking professionals understand technology implementations and prepare for the Cisco Career Certifications examinations.

From reader reviews:

Michael Proctor:

Here thing why this kind of CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide) are different and trusted to be yours. First of all reading through a book is good but it depends in the content of computer which is the content is as tasty as food or not. CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide) giving you information deeper and in different ways, you can find any reserve out there but there is no reserve that similar with CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide). It gives you thrill studying journey, its open up your own personal eyes about the thing in which happened in the world which is might be can be happened around you. It is possible to bring everywhere like in area, café, or even in your technique home by train. In case you are having difficulties in bringing the branded book maybe the form of CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide) in e-book can be your option.

Fabian Luton:

This CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide) is great publication for you because the content which can be full of information for you who else always deal with world and also have to make decision every minute. That book reveal it data accurately using great plan word or we can state no rambling sentences in it. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with lovely delivering sentences. Having CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide) in your hand like getting the world in your arm, info in it is not ridiculous just one. We can say that no guide that offer you world within ten or fifteen minute right but this publication already do that. So , this really is good reading book. Hi Mr. and Mrs. busy do you still doubt this?

Sandra Conaway:

Many people spending their moment by playing outside together with friends, fun activity having family or just watching TV all day long. You can have new activity to invest your whole day by reading a book. Ugh, think reading a book really can hard because you have to take the book everywhere? It alright you can have the e-book, having everywhere you want in your Cell phone. Like CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide) which is having the e-book version. So , try out this book? Let's see.

John Almanzar:

With this era which is the greater person or who has ability in doing something more are more important than other. Do you want to become considered one of it? It is just simple approach to have that. What you must do

is just spending your time not much but quite enough to have a look at some books. One of several books in the top checklist in your reading list is actually CCNP Self-Study: Building Cisco Remote Access Networks (BCRAN) (2nd Edition) (Self-Study Guide). This book which can be qualified as The Hungry Hills can get you closer in turning out to be precious person. By looking way up and review this e-book you can get many advantages.
