The future prosperity of all countries will be ensured once the talents and abilities of women are given equal opportunity. Human beings have endured all manner of suffering throughout history, yet still they do not grasp this fundamental issue, which is at internal cause of their difficulties. Bringing back the spiritual sovereignty of our maternal origin goes to the very root of what is wrong with the world. In other words, until Mother God is welcomed back into the hearts of humanity complete healing cannot come about. Through and with Mother God, a final peaceful revolution can be born. The symbolism and the reality of the Divine Feminine has taken on an electrifying power for modern women. When a woman discovers Mother God, they feel set freed because they have discovered the highest exemplar of women's full potential. Coming to have a personal and intimate relationship with Mother God permeates the soul and is literally an "Oh My God" moment. The Return of Mother God gives all women the model for female strength and authority. In fact, recognizing the feminine aspects within God can be a "eureka" moment for both women and men. The idea of God as Divine Mother is now bursting forth into the mainstream. Instead of ignoring and disregarding Mother God, the whole world should embrace their natural spiritual Mother and rise above their long-standing beliefs. The re-establishment of feminine values under Mother God can awaken a higher consciousness in humanity. Women are naturally gifted to educate and heal the planet. The image of God as a mother who bonds with her children while fulfilling many responsibilities is a source of great comfort and solidarity. It is Mother God's hope, that together with Father God, humanity will be reunited as one family.
