Understanding Manual J - Heat Loss and Heat Gain In the Real World ACCA
Understanding Manual J is a unique new 4-CD computer video training series in the basics of residential heat loss and heat gain calculations. This program is designed for the HVAC professional who will be using a computer based program to calculate the heat loss and/or heat gain for residential buildings. This program gives the user all of the information necessary to intelligently use a computer based system. Split into four parts, the user can move at his or her own pace, stopping and starting at any time. Understanding Manual J takes the nationally-recognized residential load calculation standard and breaks it down in a way that's easy to understand and apply. It's perfect for classrooms, training sessions, in the office, or in your home! Topics covered include: Guidelines and Limitations How Heat Moves and What To Measure Design Conditions and Fenestration Opaque Surfaces and Duct Systems
